## ABSTRACT

It is an object of the present invention to provide anti-allergic agents, skin creams, dermatitis-blocking agents, pollinosis-alleviating agents, and bath agents that serve as antipruritics derived from natural products and that prevent, alleviate and treat various itches felt on the skin.

The present invention relates to antiallergic agents, skin creams, dermatitis-blocking
agents, pollinosis-alleviating agents, and bath agents
comprising Purpuricenus temminckii frass as an
ingredient.
